## **U.S. Fulbright Scholars to Italy** *Academic Year 2009-2010*

This is a summary list of US Scholars who have been assigned a Fulbright award to Italy for the 2009-10 academic year.

Fulbright Scholars in Italy can be invited to lecture at other Italian or European universities under the auspices of the Fulbright Inter-Country Program.

### **Fulbright Inter-Country Program**

The Fulbright Inter-Country grant program offers the possibility to invite Fulbright lecturers and researchers in Italy or in Europe ([http://www.cies.org/us\\_scholars/us\\_dir.htm](http://www.cies.org/us_scholars/us_dir.htm)) to take part in academic meetings, conferences, seminars and other program-related activities organized by Italian or European universities.

The Inter-Country program, carried out in collaboration with Fulbright Commissions in Europe, finances travel expenses of Fulbright researchers or lecturers from the city in Italy or in Europe where he/she is carrying on his/her Fulbright project to the site of the hosting institution.

Italian universities interested in inviting Fulbright scholars temporarily residing in Italy or Europe should contact in advance the Fulbright scholar to discuss the proposed program and to verify his/her availability.

The universities then should send their request to the US- Italy Fulbright Commission to the attention of Executive Director Maria Grazia Quieti ( Email: [Mariagrazia.quieti@fulbright.it](mailto:Mariagrazia.quieti@fulbright.it) ).

The request should be accompanied by the event program.

## Senior Research Scholar

**FONTAINE, Reid G.**  
Home Residence in Tucson, AZ

<b>Project</b>	<p><b>To conduct research in Psychology.</b> Social cognitive and personality factors contribute to alternative developmental paths across time. Whereas some individuals whom have specific difficulties (e.g. moral judgment, evaluative decisions making) may become antisocial, others may become anxious and depressed. And others may present a comorbid picture. We have only limited knowledge of how these factors affect alternative outcomes, but initial research suggests that key variables such as moral disengagement and hostility influence varied developmental paths among Italian youths/adults in critical ways. He proposes collaborative research with U. Rome scientists to explore this area.</p>

<b>Project</b>	<p><b>To lecture in Cinema, Gender and Migration.</b> The proposed seminar will offer students an introduction to a topic at the center of her current research. Gender theory, transnational feminist media theory, and other methodologies will be used to analyze what may be described as the international cinema of migration. The seminar's interdisciplinary approach will complement students' previous theoretical training. Its focus on media and migration will also provide them with a crucial context for the study of gender and sexuality.</p>
